ABDUL AHAD

Full Stack Developer • ERP & Business Platforms • AI-Integrated Web Applications

+91 88263 24063 | ahadabdul9976@gmail.com | Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3 years of experience delivering custom, production-grade software for companies and organizations. Owns the complete software development lifecycle, from requirements and architecture to CI/CD, cloud deployment and maintenance. Builds scalable ERP systems, business management platforms, role-based dashboards, secure RESTful services, payment gateway integrations and AI-powered features using React.js, Next.js, Node.js, PostgreSQL, Supabase and modern cloud infrastructure.

CORE COMPETENCIES

Full-Stack Architecture • ERP & SaaS Development • RESTful API Design • Relational Database Design • Role-Based Access Control • Authentication & Security • Payment Gateway Integration • CI/CD Pipelines • LLM / Generative AI Integration • Cloud Deployment

TECHNICAL SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive UI Design
Backend	Node.js, Express.js, RESTful APIs, Authentication & Authorization, Payment Gateway & Third-Party API Integration
Databases	PostgreSQL, SQL, Supabase (Database, Auth, Storage)
AI & LLM	OpenAI API, Google Gemini API, Prompt Engineering, AI Feature Integration
DevOps & Cloud	CI/CD Pipelines, Git, GitHub, Vercel, Supabase Cloud, Cloud Deployment
Other Development	Web, Mobile App and Game Development
Tools	Postman, VS Code, Supabase Studio

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer — 3 Years

Independent Consultant — *Remote*

- **Client Delivery:** Partnered directly with companies and organizations to design and deliver custom web applications and business software aligned with their operational workflows and strategic goals.
- **End-to-End Ownership:** Led projects across the full lifecycle, including requirement gathering, system architecture, database modeling, API development, testing, CI/CD, deployment and post-launch maintenance.
- **Stakeholder Management:** Translated business requirements into technical specifications and ensured on-scope, high-quality delivery.

Full Stack Developer Intern — Dec 2025 – Jul 2026

DevforDevs — *Remote*

- **Application Development:** Engineered full-stack web applications using React.js, Next.js, Node.js, PostgreSQL and Supabase for diverse client requirements.
- **Enterprise Solutions:** Built ERP systems, business management platforms and data-driven dashboards that streamlined client operations and reporting.
- **AI Integration:** Delivered AI-powered features by integrating large language model APIs into production applications to automate and enhance user workflows.

E-Commerce Website Surveyor (Part-Time) — Jul 2025 – Dec 2025

TELUS Digital (USA) — *Remote*

- **Quality Evaluation:** Assessed e-commerce platforms for usability, search relevance, content quality, customer experience and site performance.
- **Structured Analysis:** Conducted standardized quality assessments across multiple digital platforms to drive user-experience improvements.

KEY PROJECTS

Skora – Cloud-Based ERP Management System (Live Demo)

Next.js • Tailwind CSS • PostgreSQL • Supabase

- Architected and developed a cloud-based ERP platform that centralizes academic and administrative operations through role-based dashboards and database-driven workflows.
- Implemented core modules for attendance, grading, reporting, fee management, secure authentication and institutional administration.

Fitora – Gym Management System (Live Demo)

Next.js • PostgreSQL • Supabase • AI-Assisted Development

- Developed a comprehensive gym management platform covering memberships, attendance, subscriptions, trainer management, payments and reporting.
- Implemented role-based access control, administrative dashboards and automated database workflows.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering | *Sunderdeep Engineering College (AKTU)*
